

BetterLight Artwork Scanning.

This is a non-contact, archival, museum quality, high-resolution art-scanning solution which scans your originals with no interpolation (forced digital enlarging) or stitching for works up to 60" x 40". For more details see our artwork [scanning services page](#)

Prices Quoted are Inclusive of VAT. We can offer discounts and savings for multiple paintings/artworks scans made as a batch job at the same time. Please contact Rush Digital Printing for details and a batch scanning estimate.

Rush Digital Printing scanning prices includes Basic editing and colour correction, your full size .tiff print file and a standard web size/social media .jpg file. We provide a download link for your files using Dropbox.

We highly recommend that you ask us to include a test print with your scan before proceeding to a full print run.

Our scans are 300 dpi x the size of the original artwork with a native resolution of 12000 x 16000 pixels, 549 MB max file size 24-bit RGB (1.1 GB in 48-bit RGB)

Work can generally print 2x larger than the original without loss of detail due to the high scan quality.
